Introducing the MedWave™ Contour-100S

Advanced Light Therapy for Inch Loss,
Metabolic Health, & Total Wellness

Revolutionize Your Practice with the Contour-100S

The Contour-100S is an advanced light therapy solution designed to help health and wellness practitioners offer effective, non-invasive treatments for inch loss, metabolic health, skin rejuvenation, and overall wellness.

Utilizing the proven power of 635nm Narrow light™, it provides a turnkey solution to enhancing services and growing your business.

MedWave™

Key Benefits for Your Patients

1. Inch Loss and Body Contouring

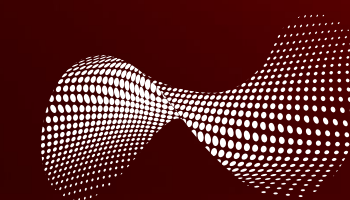

- **Fat Reduction:** Stimulates fat cells to release stored fat, reducing stubborn areas like the abdomen, thighs, and arms. Lose up to 3 inches in one session.
- **Body Contouring:** Improves body shape and tone, providing a slimmer, more defined appearance.

2. Boosts Metabolic Health

- **Increased Cellular Energy:** Enhances ATP production, optimizing metabolism.
- **Fat Utilization:** Promotes the breakdown of stored fat for energy, aiding weight management.

3. Additional Benefits of 635nm Red Light

- **Cellular Repair:** Supports faster recovery and improved tissue health.
- **Hormonal Balance:** Contributes to stability, essential for effective weight management.
- **Skin Improvement:** Increases collagen production, leading to firmer skin and reduced cellulite.

MedWave™

How the MedWave™ Contour-100S Works

Mitochondrial Stimulation:

The 635nm Narrow light™ penetrates the skin, boosting ATP production and improving energy utilization, with a 30-degree LED lens for effective skin penetration.

Fat Cell Reduction:

Stimulates fat cells to release their contents, enabling inch loss over time.

Enhanced Circulation:

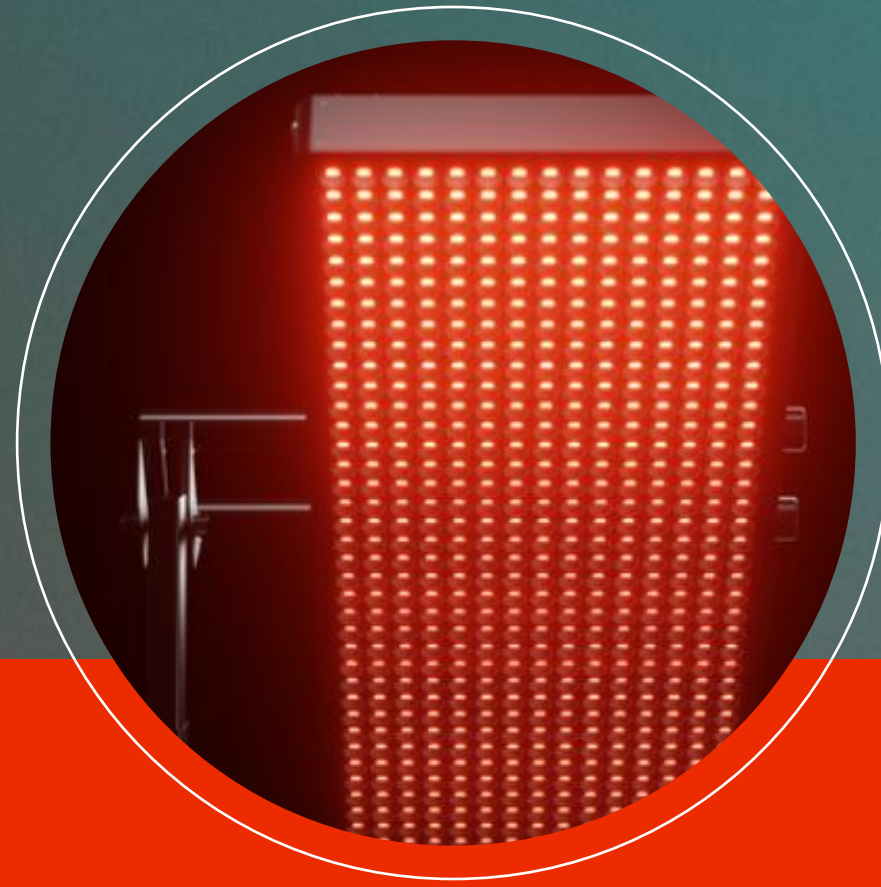

Improves blood flow for better nutrient distribution, waste removal, and skin health.

MedWave™

Turnkey Solution for Practitioners

1. SIMPLE IMPLEMENTATION

- **Easy Integration:** Quick set up & integration into existing treatment protocols. Installation included (Ts&Cs apply).
- **Quick Training:** Practitioners & staff can be trained efficiently.

2. PROVEN BUSINESS BENEFITS

- **New Revenue Stream:** Attract new patients and retain existing ones.
- **Flexible Pricing:** Create customized pricing, packages & memberships.
- **Marketing Support:** Gain access to promotional materials (social media templates, SMS campaigns, Facebook Ads & more).

3. PATIENT SATISFACTION & RETENTION

- **Visible Results:** Patients typically see 1 - 4 inches loss with their first treatment and improved skin tone after a few sessions.
- **Non-Invasive and Safe:** No downtime or discomfort; patients can resume daily activities immediately.

MedWave™

Business Benefits for Your Practice

Differentiate Your Practice:

Offer a state-of-the-art, non-invasive treatment.

Increased Revenue Per Patient:

Create tiered treatment packages for long-term use.

Attract New Patients:

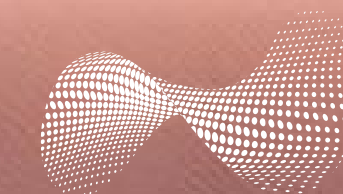

Appeal to those seeking non-surgical body contouring and skin improvement.

Turnkey Marketing Support:

Access brochures, digital content, and promotional materials.
